PRIZE POOLS:
All tournament prizes are funded by public contributions and from SpeedGaming. The prize pool board shows the total public contributions for each tournament. SpeedGaming also adds a bonus to each prize pool, as described below. SpeedGaming does not take any portion of the prize money.

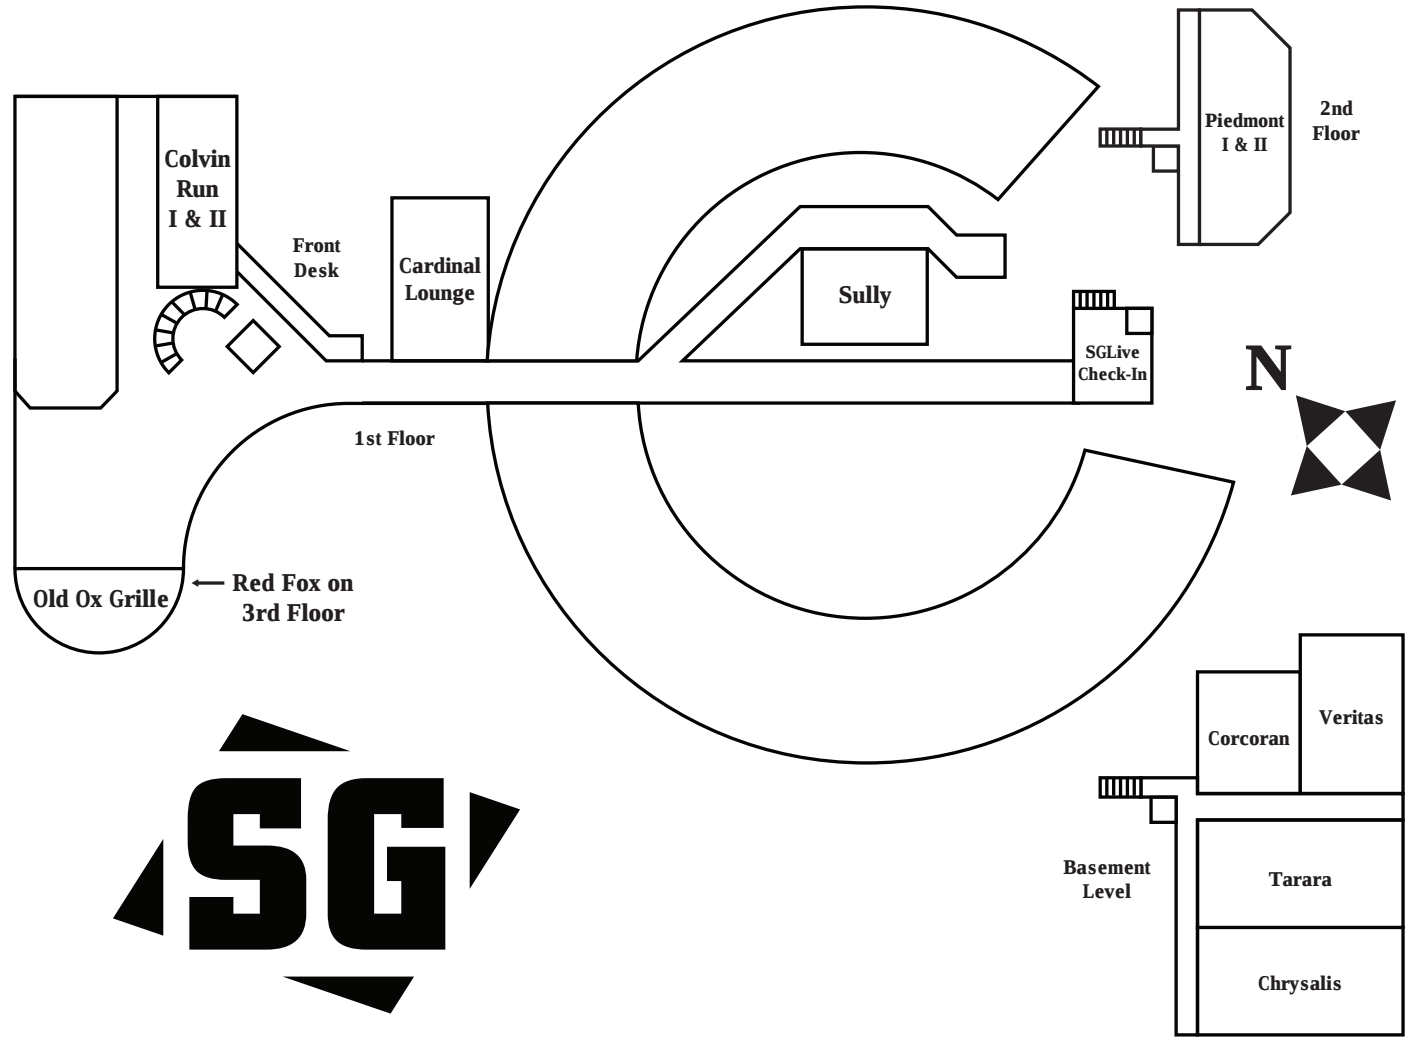

Contribute to a game's prize pool online. Write the name of the game in the comment (make sure you specify in-person or online in your comments). If the game has both an online and on-site tournament, your contribution will be split between the two unless otherwise specified in the comments. The prize pool board will be updated periodically. Prize pool contributions continue through the duration of the SGLive in-person event.

In addition to public contributions, all tournaments will receive prize bonuses from SpeedGaming. The bonus amounts can be seen on the prize pool boards. Deadlines for finalizing the prize bonuses: October 21st 11:59:59 PM Eastern Time

In addition to the cash prizes, winners will be awarded trophies provided by SpeedGaming.

Additional side tournaments and events will be offered by the community attending the event. Some examples include various gaming tournaments and races, card tournaments, board games and more. Check the community events and board game room channels on the SGLive Discord Server to find out more about the events taking place.

Tournament Room

Daily from 8:00AM until Midnight Eastern Daylight Time Thursday-Saturday, 8:00am until 6:00pm Sunday
SULLY room, 1st Floor (near Check In)

All tournament matches not put on our restream stages will be played in this room, with the exception of the Best of NES events. **All tournament matches need to be scheduled during the open hours specified above unless prior approval is given by a SpeedGaming Live staff member for after hour play. This approval must be given by SGL staff, not by tourney admins.**

The Admin Desk will be positioned to the left of the doors, and will be staffed by SpeedGaming Live staff during the above hours. All tournament runners will check in here for their scheduled races, be seated by a Race Proctor, and then directed to the self-service PC to access their tournament seed (or seed # for Z1R races).

Once you have settled at your station, a Race Proctor will check the ROM hash codes to verify both runners are on the correct seed. Once ready, signal to the Race Proctor, who will quietly count down to begin play. After the end goal is satisfied as determined by the tournament's rules, raise your hand to signal to the Race Proctor you have finished. They will verify, and let your opponent know of your finish. In the event of a close finish, race proctor will notify admin desk for further verification or consultation of that tournament's admin body.

While most scheduling and volunteering to commentate and track races will be handled through our OnSite Tool, there will be a PC near the Admin Desk for runners to submit races to the schedule and for volunteers to sign up for duty.

The Tournament Room and the hallway outside is a QUIET ZONE. We ask runners once finished please proceed down the hall before discussing. Those who cannot keep conversations to a quiet tone will be asked to move away from the area.

Broadcast Room
Daily from 9:00AM until Midnight Eastern Daylight Time
PIEDMONT I + II, Second Floor (above the Fitness Center)

This is where matches assigned for broadcasting take place. Four SpeedGaming channel stages will be set up with seating for the audience, commentators and trackers overlooking the runners on a stage.

Runners will report here where the Broadcast Tech will direct them where to sit and set up their equipment. After doing so, they'll report to the Tournament Room to obtain their ROM for Randomizer Tournaments [those playing in a vanilla tournament can bypass this step].

Once the broadcast has begun, runners will confirm ready to the Broadcast Tech, who will count them down to begin the race.

BEFORE YOU GO...

Bring Headphones

Players should bring headphones. All players should bring a pair of earbuds (1/8" wired). During streamed matches, to ensure sound isolation for randomizer races, players will listen to the game sound through earbuds, and we will provide over-the-ear headphones that go over the top of the earbuds which play white noise. We have some earbuds available for those who don't own any, but it's preferred for sanitary reasons that you bring your own.

For non-streamed matches players are allowed to use any kind of headphones, so you can bring non-earbud headphones too if you like. The monitors will have 1/8" headphone connectors that you can use, or you can connect headphones directly to your console/PC if that's what you prefer.

Bring a Console or Device to Play on Emulator

Players should bring their own console/controller/game or flash cart, or bring their laptop/PC if they play on emulator. If you're an emulator player who doesn't have access to a PC and can not borrow one for the event, please contact the organizers ahead of time. We may be able to provide a limited number of emulator setups, but we strongly recommend bringing your own or borrowing if you can.

Type of TV Monitors

All TV monitors in our practice and tournament rooms will be LCD monitors connected via a RetroTink (composite, component, s-video). If you want to play on any other kind of monitor, please bring it to the event. Please contact a SGLive Staff member if you need to store your TV.

Randomizer Tracking Methods

The allowed methods of tracking will depend on the tournament. For tournaments that allow programs to be used, it is the responsibility of the player to bring their own laptop/tablet/smart device/PC for tracking, and tournament admins will decide which tracking programs are allowed. Paper & pens/pencils may be provided at the admin desk as available.

SAFETY AND SECURITY

We have created a separate document outlining the SGLive Safety and Security Policies and what to do in case of an issue. Please make sure you read this in full and reach out to a SpeedGaming Live Staff Member in case you have any issues.
